February 16, 2018

Dear Sumner County Schools Parents,

Throughout our schools over the past two days, teachers and administrators are having good, open conversations with students and parents about our school safety and why our safety drills are so important.

School safety is always our highest concern. There are individual school safety plans for each school specific to the building which are developed with the support of law enforcement and reviewed annually.

Following the tragedy in Kentucky last month, we asked our administrators to review their safety plans and reinforce them with their staff.

Campus safety involves everyone, starting with the school staff, parents, students and the community.

If you or your student see or hear something that concerns you, please tell a school administrator, the SRO, or local law enforcement. We take each safety concern seriously and appreciate your support.

In highest regard,

Del R. Phillips III, Ph.D.
Director of Schools
